

1. Clean Campus, Healthy campus.

. 1.Goal

- ❖ To encourage and inculcate a cleanliness Culture among the faculty students.
- ❖ Develop patriotic temper.
- ❖ Create awareness about clean India movement and students' role in it.
- ❖ Encourage students to be the partner in the movement.
- ❖ Create awareness about national health.

2. The Context: The central and state government have jointly declared clean India movement and appealed everyone to be partner in it. The college realizes its social and national responsibility. Hence, the college decided to accept it as a best practice to inculcate important values among them and contribute to the health of the nation.

3. The Practice: The college introduced this practice on 2nd Oct 2017 as a best practice To achieve the set goals the college undertook the following events and cooperated with the local administration in order to create awareness among the citizens about cleanliness and bifurcation of Dry garbage and wet garbage.

1. Weekly campus cleanliness programme.
2. Maintaining eco- friendly campus.
3. weeding out unwanted shrubs.
4. Painting with messages.
5. Ranglli competition on Clean India.
6. Poster completion.
7. Debate completion on Role of Youth in the clean India movement.
8. Cleanliness and social health- seminar
9. Cleanliness drive by NCC cadets.
10. Conveying message through street play and cultural programme at college and NSS camp.

4.Evidence of Success:

1. The practice has achieved huge success at college level as well as local level.
2. The students have realised their social responsibility and participated wholeheartedly.
3. They participated in all the competitions and spread message of health and hygiene.
4. They have witnessed the inculcation of national values in them indirectly.
5. They have given feedback of it in their expression and feedback.

5. Problems Encountered and Resources Required

The practice did face some problems which were later sorted out and all performed positively. The time factor was a great problem. They could spare time from their daily regular academic schedule time to time and cooperated with the college in this venture and national interest.

2. Tobacco Free College- a Campaign

1. Title of the practice:
Tobacco Free College: a Campaign
2. Goal:
 1. To create awareness among students about bad effects of chewing tobacco.
 2. To inculcate good habits.
 3. To promote idea of personal health
 4. To explain how personal health contribute to national health.

3.The context: Tobacco chewing has been a severe problem in India since ages. Many students fall victim to drugs and lose their health and spoil their career. It has serious effects on their by causing deadly disease like cancer, weakness, speech problems etc. The college has most of the students coming from tribal community , who are also habitual to tobacco chewing, due to which many of their parents have lost their health. In this context, the could play a vital role in spreading the message and making it mandatory to all the students and teachers to participate in the campaign. Not to chew tobacco and don't allow anyone to do so.

4.The practice: In the above context, in order to achieve the set goals, the college decided to accept it as a best practice. To spread the message of the campaign the college undertook several programmes.

1. Finding tobacco addicts.
2. Bringing them to consultancy, they were advised.
3. Health check up camp with the help of local PHC.organised
- 4.Programmes of voluntary organization organized.
5. Film on effects of tobacco shown.
6. The programmes sent by district collectorate was run,
- 7 . Students were properly guided by trained volunteers.
8. Painting on walls painted to spread the message.
9. Tobacco addicts were fined if found chewing tobacco/ ghutka etc.
- 10 .CCTV system employed to trace the addicts.

5.Evidence of success:

- 1.The practice received great success.
- 2.The students realized that tobacco chewing is injurious to their health and it has adverse effects on their family and overall social health.
3. The number of addicts gradually decreased.

4. They carried the message to their homes, villages, towns and appealed others to give up the habit.

5. Their health related issues resolved.

6 significant improvement in their energy was noticed during games and sports.

6. Problems Encountered and Resources Required

1.The practice did face some problems which were later sorted out and all cooperated positively.

2.Many students did not offer them to check up.

3.The time factor was a great problem.

4The concerned teacher and advisor had to spare a lot of time dealing with such students.

5.Inviting local medical personals was a problem..
